

CombiLine Recycling stations - ready combinations

Recycling station 1. Ready module as shown (1020x1174x760 mm) with holes. 350x350* mm in the worktop. The station is adapted for 190 L recycling containers / cardboard cart and 19 + 10 liter recycling containers. Recycling containers and cardboard cart are not incl. Stainless steel handles are included as standard.

Recycling station 2. Ready module as shown (1670x1174x760 mm) with holes. 350x350* mm in the worktop. The station is adapted for 190 L recycling containers / cardboard cart and 19 + 10 liter recycling containers. Recycling containers and cardboard cart are not incl. Stainless steel handles are included as standard.

Recycling station 3. Ready module as shown (970x1174x600 mm) with disposal slot 250x250* mm in the worktop. The station is adapted for 140 L recycling containers / cardboard cart / bag holder and 19 + 10 L recycling containers. Containers, bag holders and cart are not incl. Stainless steel handles are included as standard.

Recycling station 4: Ready module as shown (970x1174x600 mm) with disposal slot 250x250* mm in the worktop. The station is adapted for 140 L recycling containers / cardboard cart and 10, 19 and 60 recycling containers. Recycling containers and trolley are not included. Stainless steel handles are included as standard.

Ready combined recycling stations that cover the entire waste sorting for both large and small offices. Stainless steel handles are standard. Frame and fronts in white, worktops in F2297**. Stainless steel handles are standard. If you'd prefer black or white, please let us know when ordering. All of the drawers have 100% expansion and withstand up to 35 kg. Complete with containers and symbols, see pages 52–53.

*Worktop and disposal slots are included in the recycling station.
**High pressure laminate, Formica F2297, Anthracite.

High Pressure Laminate

23 mm standard work tops coated with high pressure laminate and 2 mm airtec edging*.

Direct laminate

22 mm standard work tops have an outer paper layer coated with an impregnated paper and a finish of aluminum particles for extra protection against wear. 2 mm matching airtec edging*.

Veneer

Beech Veneer Oak Veneer Birch Veneer

Veneer

22 mm clear lacquered beech, birch and oak veneered chipboard with 2 mm solid edging.

*Airtec edging also referred to as laser edging, provides an almost invisible joint between the worktop and ABS-edging. This also provides a higher protection against water and heat. This technology is glue-free during the manufacturing process, which results in a lower environmental impact.

Contact TreCe if you want worktops in other high-pressure materials or in other materials such as Valchromat.
