### OPTIONAL PREINSTALLED WIRING

#### IN-0006

Preinstalled wiring consists in the addition of the necessary mechanisms to integrate power systems in the table, so that wiring is hidden until the way out in the floo . Necessary grommet are included and 3m cable (from the power system). For other cable dimensions contact the Customer Department.

Preinstalled wiring is available for aluminum legs, Delta and 100x100 square legs. In wooden legs cable way out is placed in center of the table.

The distribution of electricity is entirely configurable; the exit for the cables can b placed inside any leg (A, B, C or D). Please specify the Customer Departmente which leg is to have the cables with reference to the view of the table in the diagram below.
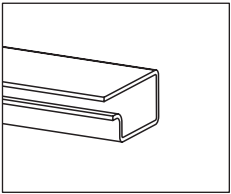

### 1 POWER BOXES DISTRIBUTION

By standard, the position of the system will be in the central of the table, placed horizontally. When there are two system boxes, these will be separated 1/3 of the way of table and placed horizontally. For other options, please contact the Customer Department.
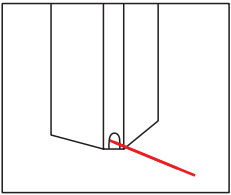

| 1/2 | 1/2 |   | 1/3 | 1/3 | 1/3 |

### 2 WIRING MANAGEMENT

Wire pass through an aluminum grommet keeping it hidden. By default color is silver, for othe finishings ask the Customer Department

### 3 CABLE WAY OUT

The cable way out can be performed directly from the power system or thru a canal in the base bottom, so that is hidden until it gets to the floo .
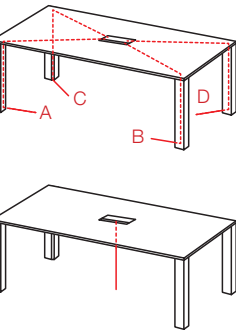

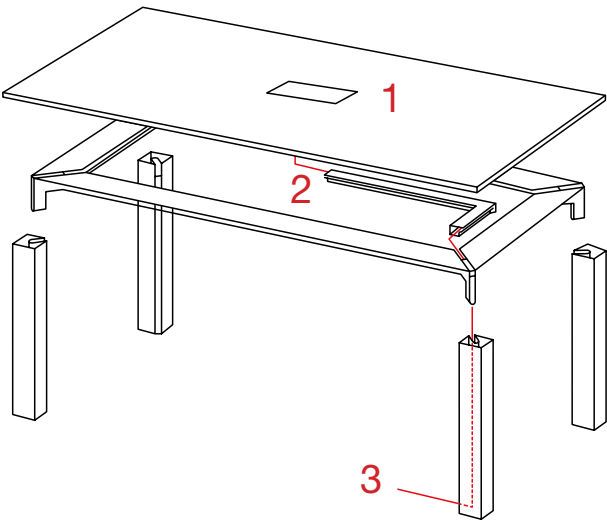

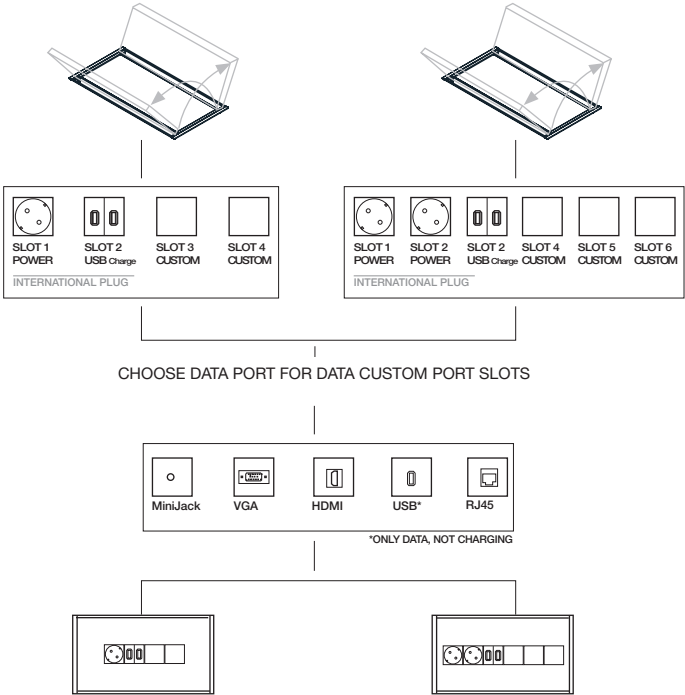

## INTEGRATED POWER BOXES

The finish is integrated with the top. Its opening is towa ds both sides.
