Beatnik™ Sound Station Chair

Immerse Yourself in Your Private Audiovisual Cocoon

Beatnik lets you enjoy in your private cocoon in the middle of busy open plan spaces, ensuring audio and visual isolation. Designed as a room-in-room concept, Beatnik not only provides a new quality space within a space, but adds a distinctive feature to the surroundings.

Designed to Sit In & Stand Out

Beatnik was designed for a variety of different modes of sitting, enabling you to choose your favourite sitting position according to your mood, activity or occasion. Quality plywood construction using precision CNC machining ensures excellent carrying capacity and stability, while three different foam densities are used optimally - softer on the seating area and backrest, harder on the outer shell.

Beatnik Sound Station Chair

Beatnik Sound Station Chair features a high quality Bose 2.1 speaker system with an integrated subwoofer under the seating area. The satellite speakers are located at the upper front part of the chair, creating an impress d system connects to your mobile, tablet or laptop computer wirelessly using Bluetooth or Apple's AirPlay technology.

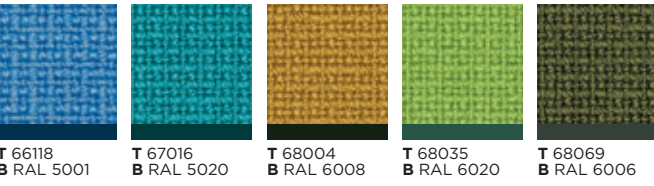

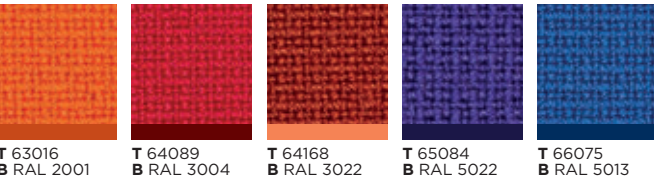

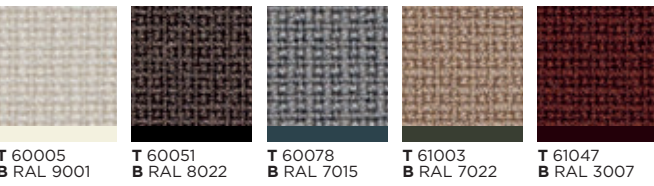

Beatnik Communication Chair

Beatnik Communication Chair lets you communicate and make conference calls hands-free using the built-in iPad mount. The cocoon shaped chair isolates sound from the surrounding space, ensuring privacy.
